PROJECTS

BeTop Tutorial website

Responsive tutorial website, designed for seamless navigation and a great user experience. Key pages include Home, Contact, Courses, and Gallery, all crafted for ease of use. The Contact page allows users to send inquiries via email or WhatsApp.
- HTML, SASS, & JavaScript

VG Stocks

Videos Images Stock
The Images and Video Library website allows users to browse and download content for free. It features a search bar and filter buttons to assist users in locating their desired content efficiently. The data is retrieved through the Pexels API.
-HTML, SASS, JavaScript, and PHP.

Note Web App

CRUD Web Application
Users can add notes and those notes are stored in the local storage of the web browser. Creating, reading, updating, deleting, and search bar for notes searching are the features of this web app.
- HTML, CSS, & JavaScript

My Portfolio Website

This is my portfolio website, in this I have mentioned all my projects.
- HTML, SASS, & JavaScript

CAREER OBJECTIVE

Although my previous experience is in a different field, but my interest is in web development. I have acquired strong web development skills through self-learning and platforms like YouTube. I have created multiple web development projects using HTML5, CSS3, SASS, JS, and more. I am also a freelancer making websites for small businesses. My passion for web development motivates me to keep learning and improving, and I'm excited to apply my skills to new and creative projects.

EXPERIENCE

Associate:

Company name: Firstsource

February 2024 - Present
Working for Lloyds Banking Group (one of the UK's largest financial services organisations). In this work we deal with confidential data of UK customers. We process the data and provide those data which is asked by customer directly or indirectly (by third party).

Freelancing:

December 2024 - Present
Developing websites for small businesses which offers services such as electronic repair, educational tutorials, photography, and more. Committed to creating tailored web solutions that enhance online visibility and drive customer engagement.
